

Get Microsoft O365 Support Without Delays or Added Costs

And put an end to the frustration your staff encounters when dealing with poor or non-existent Microsoft support.

Do These O365 Headaches Sound Familiar?

- You call in a ticket and have it escalated, only to wait, and wait, and wait some more – or never hear back from them at all.
- Your inquiry gets rerouted – often to another country where language barriers make it difficult to communicate.
- You call Microsoft support – again, and encounter yet another lengthy wait while sitting on hold listening to the same recorded message for the umpteenth time.
- Your staff's bandwidth is stretched thin, but you have no choice but to add O365 support inquiries to their plate.

There is a better way!

Enterprise Visions can eliminate these frustrations by providing and leveraging:

Well-established relationships with Microsoft expert partners

Entrenched O365 support

Long-term, forward-thinking support to address issues before they become headaches

Enterprise Visions Is Your Advisor for Unmatched O365 Support

We offer:

Complete Microsoft support for little to no added cost

Integrated O365 support in a way that makes sense for your bigger picture IT strategy

We Have a Proven Track Record for Microsoft Support

A midwestern financial services company with several dozen locations across the central U.S. leveraged Enterprise Visions to migrate from traditional premise-based software to a cloud-based O365 solution. **We provided:**

Full support of the rollout

Managed conversion of users to the new platform

A better-suited license structure

Ongoing lifecycle management

This company did not need to interface directly with Microsoft and got instant support and user success through Enterprise Visions.
